INTRODUCTION**1. Legislative basis and scope of the document**

At the European level, the European Commission adopted on December 2004 a Recommendation (2004/913/EC) fostering an appropriate regime for the remuneration of directors of listed companies, on February 2005 a Recommendation (2005/162/EC) on the role of non-executive or supervisory directors of listed companies and on the committees of the (supervisory) board, and, on April 2009 a Recommendation (2009/385/EC) complementing Recommendations 2004/913/EC and 2005/162/EC as regards the regime for the remuneration of directors of listed companies.

On 3 March 2010, the Italian Corporate Governance Committee approved new principles about remuneration of directors and key management personnel and released accordingly a revised version of Article 7 (now Article 6) of the Italian Corporate Governance Code of March 2006 as amended on December 2011, encouraging issuers to apply the new principles by the end of the year that begins in 2011.

Since d'Amico International Shipping S.A. (hereinafter, the "Company"), a Luxembourg incorporated company subject to Luxembourg laws and regulations, is listed on the Borsa Italiana's equity market and is admitted to the STAR segment of the Mercato Telematico Azionario of Borsa Italiana's equity market, is further subject and voluntarily applies, to the extent possible, the corporate governance criteria and principles stated by the Corporate Governance Code for the Italian Listed Companies issued by Borsa Italiana on March 2006 and subsequent amendments (hereinafter, the "Corporate Governance Code"), among which the new principles on remuneration. d'Amico International Shipping S.A. to the extent possible complies with the recommendations of the Corporate Governance Code regarding remunerations.

In accordance with the Corporate Governance Code this document sets forth the General Remuneration Policy of d'Amico International Shipping S.A. and the Guidelines for the years 2014-2016 on remuneration of executive directors and other directors covering particular offices as well as key management personnel of the Company and its operative fully owned subsidiaries (the Key Management Personnel).

The position used by d'Amico International Shipping S.A. in its General Remuneration Policy is that remuneration of executive directors, other directors covering particular offices and Key Management Personnel is defined in a way to align their interests with pursuing the priority objective of the creation of value for the shareholders in a medium-long term timeframe.

This General Remuneration Policy has been approved by the Board of Director in its meeting held on 27 February 2014, upon proposal submitted by the Nomination & Remuneration Committee, with the involvement of all the relevant internal corporate functions, and is submitted to the resolution of the Annual General Shareholders' Meeting to be held on 2 April 2014.

- executive directors and other directors who cover particular offices;

- top managers with strategic responsibilities within the Company and its operative fully owned subsidiaries (Key Management Personnel).

The Policy complies with its applicable legal framework and with the provisions of article 6 of the Corporate Governance Code especially where it states that:

- [...]
- for directors significantly involved in the management of the company and/or charged with strategic responsibilities, a share of the total compensation is linked with the company performance objectives, even not economic ones, set in advance and coherent with the company compensation policy guidelines;
- the base fee is appropriately balanced with a variable fee, in the light of core business strategic objectives and the issuing company risk management policy;
- yearly, a "bonus pool" has to be set, in order to fix a maximum total amount of variable components not to be exceeded;
- performance objectives are supposed to be preconceived, measurable and in a strong connection with the creation of value for shareholders in the medium-long term;
- a significant part of the bonus shall be postponed with a minimum deferment period.

For the purpose of the Company's 2014/2016 General Remuneration Policy:

- remuneration consists of all forms of payment or benefits made directly by, or indirectly, but on behalf of, d'Amico International Shipping S.A. within scope, in exchange for professional service rendered. The overall remuneration package is divided into fixed (payments or benefits not linked to any performance criteria) and variable (additional payments or benefits depending on performance or, in certain cases, other contractual criteria). Both components of remuneration (fixed and variable) may include monetary payments of benefit (such as cash, shares, options, cancellation of loans, pension contributions, remuneration by third parties) or non (directly) monetary benefits (such as health insurance, discounts, fringe benefits or special allowance for car, mobile phone, etc.);

Non-executive directors are not included into the scope of this General Remuneration Policy and its guidelines for what concerns the variable component of the remuneration, since remuneration of non-executive directors is not linked to the economic results achieved by the Company and non-executive directors are not beneficiaries of any share-based compensation plans, unless it is so decided by the Annual General Shareholders' Meeting, which in case shall also explain the relevant reasons.

3.2.2. Fixed and variable remuneration

The d'Amico Group adopts a fully-flexible policy on variable remuneration.

Having a fully-flexible policy on variable remuneration implies not only that variable remuneration should decrease as a result of negative performance but also that it can go down to zero in some cases. For its practical implementation, it also implies that the fixed remuneration should be a sufficiently high proportion of total remuneration, to remunerate the professional services rendered in line with the level of expertise and skill required and the relevant business sector and region and to allow the operation of a fully flexible variable remuneration policy, including the possibility not to pay variable remuneration at all.

These guidelines are not directly concerned with setting numerical levels of fixed remuneration, since the fixed remuneration of Directors is primarily the result of a Shareholders' Meeting resolution and, in case of Key Management Personnel, of negotiations between a staff member and the Company or its operative fully owned subsidiaries.

According to this Policy, the variable portion of remuneration is linked to a target threshold related to the Company's EBITDA as recorded in the Consolidated Financial Statements approved by the Company's Shareholders.

3.2.3. Ratio between fixed and variable remuneration

Meeting a fully flexible variable General Remuneration Policy implies as a prerequisite the accomplishment of several mechanisms, including:

- the maximum ratio on the variable remuneration compared to the fixed remuneration, and
- proper performance measurement and associated risk adjustment.

On the first point, fixed and variable components of total remuneration are appropriately balanced in order to provide an incentive to pursue the goals and interests of the Company's Shareholders and Stakeholders, and in order to avoid the inducement to assume inappropriate risks; the higher the possible variable remuneration compared to the fixed remuneration is, the stronger the incentive will be to deliver the needed performance, and the bigger the associated risks may become.

The Company sets its ratio between fixed and variable remuneration considering the appropriate balance depending on:

- the quality of performance measurement;

- the length of the deferral and retention period;
- the legal structure of the Company and its operative fully owned subsidiaries and scope of the activities;
- business and risks involved.

The ratio between fixed and variable remuneration is settled at the moment of initial performance measurement; the variable part of remuneration falls in the range of a minimum of 20% and a maximum of 50% of the singularly allotted fixed remuneration.

3.2.4. Payout process

In case the person is entitled to the variable remuneration, the payment of a significant part (at least half percent) of such remuneration may be delayed of a minimum of six and a maximum of twelve (6-12) months.

3.2.5. Non-monetary benefits

The remuneration of executive directors and other directors who cover particular offices and the compensation of Key Management Personnel may include non-monetary benefits such a car, housing allowance, school fees and health insurance.

3.2.6. Share based remuneration

Share-based remuneration is not included into the General Remuneration Policy and is not part of the remuneration of executive directors, other directors covering particular offices and Key Management Personnel.

3.2.7. Termination payments

Termination payment is not included into the General Remuneration Policy and is not part of remuneration of executive directors, other directors covering particular offices and Key Management Personnel.

3.3. Remuneration of executive directors and other directors covering particular offices

According to the above stated principles, total compensation for the executive directors and other directors who cover particular offices is composed of two different parts:

- An individual base fee, namely a fixed amount identified;
- an individual and variable bonus to be allotted depending on the Company's Group performance, set as a share of the individually allotted base fee.

For each director, the individual bonus is set as a share of the individual base fee. Such share is among a minimum of 20% and a maximum of 50% of the base fee, in order to reach an adequate trade off of fixed and variable fee, in the light of core business, strategic objectives and risk management policy.

As far as the individual bonus is concerned, based on the proposal of the Nomination & Remuneration Committee, the Board of Directors provides for an "ability to pay" condition defined in terms of Company EBITDA Results, as recorded in the Consolidated Financial Statements approved by the Company's Shareholders.

The payment of at least half (50%) of the variable part of remuneration may be delayed of a minimum of six and a maximum of twelve (6-12) months.

Moreover:

- members of the Board of Directors shall in addition be reimbursed for all other expenses whatsoever incurred in relation with the management of the Company or the pursuit of the Company's corporate object;
- the remuneration may also include non-monetary benefits such as car, housing allowance, school fees and health insurance.

Members of the Board of Directors involved in Company's Internal Committees are not entitled to further compensation apart the base management one.

3.4. Remuneration of Key Management Personnel

The Key Management Personnel is involved in the Company managerial incentive system and includes (where not members of the Board of Directors):

- Chief Executive Officer;
- Chief Financial Officer;
- Chief Operating Officer;
- Operation Manager;
- Fleet Manager.

The Key Management Personnel remuneration (compensation package) consists of a fixed component (base salary) and a variable component (bonus) being calculated as a percentage of the singularly allotted fixed remuneration that may falls in the range of a minimum of 20% and a maximum of 50%, whose payment is subject to the achievement of the target thresholds. The target thresholds are related to the EBITDA as recorded in the Consolidated Financial Statements approved by the Company's Shareholders.

The payment of a significant part (at least half percent) of the individual bonus may be delayed of a minimum of six and a maximum of twelve (6-12) months.

The compensation package may include non-monetary benefits such car, housing allowance, school fees and health insurance.
